Full timers have started. Going to start flushing hydrants early. Need to do door maintenance, should be a yearly thing. Blood drive, June 23<sup>rd</sup> at hall, between four other departments. Regional AFG grant has been turned in for handheld radios, approximately \$2,000 on our end. Put in for grant with Indians, they get 2% we put in for mobile radios. Had their first drawing for money, we got \$40,000. Decided at North Chiefs meeting that it would be split amongst us (\$10,000/ea), 3 more rounds of drawings. Money being placed in a CD. Put in for DNR grant, 50/50 need new sets of turn-out gear and new boots, usually get it every year.

b. Sheriff's Report

239 total calls / 51 traffic stops

c. Parks and Recreation (Eddy)

Park cleanup being put together, speaking on items needed throughout the park during New Business (O)

d. Building Report

e. Zoning Administrator Report

Eddy: Had court last week, had two successful events with consent agreements  
Trent Cunningham (Township Attorney): Able to resolve a majority of the issues by sending letters or notifying the property owners and they were brought into compliance. Handful of properties needed more, worked with Supervisor Eddy, two that had hearings were mostly compliant but still had items to be taken care of, and decided to pursue judgements against them. Did so in a way that if they cleaned up the property, they would not be liable for fines and costs rather than a hardline approach. Third matter is set for a hearing in July, Eddy has been working with them and will likely be resolved and we discussed a dismissal. If properties with judgements don't comply, we can enter the property and remove blight that is in violation of township's ordinance. The township would bill them back for costs as well as their fines and costs, a lien would be placed against the property if costs go unpaid.

Eddy: Four more coming up on the 15<sup>th</sup> that will be getting citations if they don't comply.

Don Hamilton (Building Administrator): Since Tom [previous Zoning Admin.] left has handled a few calls and looked at the application permit for an addition on Beaver Rd, signed it. Matt (Planning) asked to look into storage buildings on Linwood Rd, getting another set of plans to look through

Eddy: Motion to accept reports

2<sup>nd</sup>: Whalen

All in Favor: Yes

10. Old Business

- a. Delinquent Personal Property Tax Update

Trent: Board authorized our office to work on at the last meeting, it's moving along. Draft letters that came back to the township, nothing sent yet. Seeking approval to work with our office on seizure if necessary, and what the steps entail. Nothing has changed since last meeting, work is still in progress from within our office. Seeking a motion to advance forward by working with you [the board] for anything that's necessary for seizure if necessary.

Campbell: Motion for Treasurer to work with law office to proceed as necessary and if seizure is necessary, they will take care of the necessary paperwork so that seizure can be legally done.

2<sup>nd</sup>: Whalen

Campbell: If we go to collections, would the individual be responsible for collection fees?

Trent: My understanding is that you send a notice and there's a period of time where they could pay back delinquent taxes before seizure. Once it goes to seizure, not familiar with the steps, people in our office are working with Laurie (Treasurer) on that.

Roll: Whalen-Yes, DeShano-Yes, Eddy-No, Waldee-No, Campbell-Yes

**MOTION PASSED**

- b. Linwood Beach Project Update

Mark (Spicer): Working on getting easements drafted over the last month. Met with Tim Fitzgerald at Bay County Dept of Water and Sewer, so that when we finalize designs and everything it'll be equipment, he's familiar with and would have spare parts for the pump station. Getting permitting process with DNR and

EGLE moving along. Once easements are drafted, getting with Trent and his group to get final easement document, they would do the legal document and we would do the description.

#### 11. New Business

- a. Approval for Spicer to work with Township Attorney for Linwood Beach Project  
Trent: Office approached by Spicer this week to assist with the easement acquisition part of the project. Understanding that Spicer would be taking the lead as to the initial easement acquisition, would be using our office for help with issues that arise, pulling deeds, and drafting deeds and easements as necessary for the project. Understanding this could be paid for out of the state appropriation grant funds that the township does have. Would function more as a reimbursement. Has a group in the firm that does this type of work and works with Spicer often. Seeking a motion to authorize legal counsel to work with Spicer on the easement acquisition project for Linwood Beach. Rough estimate ran with colleagues would be \$15-20k could be closer to \$10k. Will confirm that the grant funds can be used this way, understand that it could be and frequently is.

Eddy: Motion for Spicer to work with township attorneys for the easement acquisitions for South Linwood Beach project.

h. Road Agreements (Paving, Chip and Seal, Chloride)

DeShano: Ernest (0.10 mile) can still move forward with the ultra-thin, to be voted on. Seidlers Rd in poor condition. Given the option to make it a gravel road, they [BCRC] are willing to give us options: crush and shape and add gravel as necessary, double chip and seal next year, or just maintain as gravel road with no cost to the township. Any cost would be prorated if we decide to move forward within the next 3 years with any further work on it. Received estimate for Fraser Rd: 5 miles long, have chip and seal estimate from Beaver to Linwood this year for all 5 miles, just slightly higher than the quote to do 1 mile of paving. Other

chip and seal options: Cottage grove between 7 and 8 mile or River between Mackinaw and M-13 (1.5mi) could use help on the sides. Ernest still going to continue.

Campbell: The savings from Cottage Grove (\$31,183) and Seidlers (\$118,111) will pay for 5 miles of Fraser Rd.

Campbell: Motion for Ernest Street to be ultra-thin asphalted for \$17,507.76, Fraser Road from Beaver to Linwood, for chip and seal \$151,912, River Road for chip and seal \$46,357, Seidler gravel at the expense of road commission, Chloride \$1,348 all on one contract from Road Commission being signed by Brian Waldee and Brad Eddy

Whalen: can we hire someone temporarily while we get an RFP together?

Campbell: something to consider, need a phone number for someone to reach in case of emergency. Personally believe, the board should do a random rotation to be available.

Eddy: Enforced through law enforcement, it's constitutional
